**Speech Therapy at Joyner Therapy Services**

Speech Therapy continues to be a specialty at JTS. Our Speech Language Pathologists, Heather King and Rachel Romaine work with people of all ages who are in need of speech rehabilitation in a variety of settings. Joyner Therapy Services, speech therapists can provide help in one of our three clinics, home health or one of the skilled nursing facilities that provide JTS therapy staff.

Speech difficulties can range from problems with swallowing, speaking skills and language impairment. Therapists work with oral motor deficits, memory loss, and other “thought” problems—teaching the patient and his or her family methods for improving the impairment.

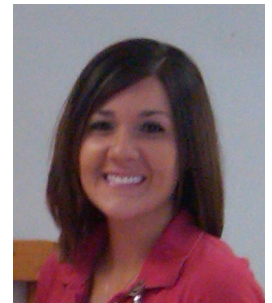

Heather King is certified in VitalStim therapy. VitalStim unites the power of electrical stimulation with the benefit of swallowing exercises for the treatment of dysphagia. Call Heather for a VitalStim evaluation for you or your family member. Heather can also provide insight to recognize cognitive impairment in seniors and speaking and language impairments in children.

Heather King, SLP

Rachel Romaine has worked with many autistic children as well as patients with voice disorders, swallowing difficulties, language, and motor speech disorders.

Heather or Rachel may be reached by calling 618-998-9894. Ask for scheduling. Our speech therapists can help you overcome speech and communication problems that are disrupting your daily life.

Rachel Romaine, SLP
